

Bring the Conservancy To You!

**Howard County Conservancy
Outreach Programs**
2026-2027 School Year

A partner with HCPSS since 2003, the Conservancy reaches more than 20,000 children each year through educational programs. All programs align with science curriculum and Environmental Literacy Standards.

The Conservancy offers traveling educational programs for schools and community groups.

Outreach programs are designed to help learners of all ages connect to the natural world. Program sessions typically range from 45-60 minutes.

Our Programs

Monarch Butterflies -Grade 3

An interactive program on monarch butterflies' adaptations, life cycle, survival strategies and more!

Owl Observations -All Ages/ Single or Double

Meet the Conservancy's owls, Ranger (barred owl) and Monty (screech owl). Participants will learn about owls' unique features and adaptations, hunting techniques and habitats.

Herptiles and Habitats -Grades 2-5

Meet two of the Conservancy's herptiles and learn about the unique features, adaptations and habitats of Maryland's native reptiles and amphibians.

Chesapeake Bound -Grades 2-5

Get hands-on experience with our watershed! Explore the impact humans have on animals and our environments and meet the Conservancy's diamondback terrapin.

Mapping Maryland -Grades 3-4

An interactive program using our giant 14'x21' Maryland map! Program covers the geographical history of Maryland, mapping, environmental resources, human impacts and more!

NEW! Wild Designs -K- Grade 5

Experience how animals and plants' structures help them to survive in their specific climates and habitats. Learn hands-on with different artifacts and interactive activities to explore life across the US and Maryland.
